## Experience

### • Fullness Web Solutions

Full-Stack Developer

June 2022 - Present - Remote 📍

- **Improved Core Web Vitals (CWV) metrics**, particularly **Largest Contentful Paint (LCP)**, by leveraging **Next.js** for enhanced page performance. **Reduced the number of affected URLs from over 250 to under 45**, leading to faster load times and improved user experience.
  - **Implemented structured data** using **Schema.org** for FAQs and author pages, significantly **increasing organic traffic** and improving search engine rankings across thousands of pages.
  - **Authored Cypress end-to-end test cases**, integrating **Cypress Cloud** to resolve flaky tests, enhancing stability and efficiency of the development process.
  - **Played a key role in migrating the codebase** from an older version of **Next.js to Next.js 14**, reducing technical debt and improving overall page performance.
  - **Led the redesign of a reusable product iframe**, enhancing visual appeal and functionality across multiple external websites.
  - **Contributed to the RateCity website** by performing UI fixes, building scalable components, maintaining the overall site, and creating pixel-perfect web pages.
- 

## Skills

React.js · Next.js · TypeScript · JavaScript · Node.js · Express.js · NestJS · MongoDB · GraphQL · Cypress · Docker · CI/CD · Git · Jenkins · TailwindCSS · Styled-components · Remix.js · REST APIs

---

## Projects

### • Review It - Comprehensive Multi-Media Review Platform (In Progress)

Technologies: Next.js, React Native, NestJS, MongoDB, Docker, Nginx

- **Backend** 📄: Built with NestJS, MongoDB, and Docker. The backend is fully containerized using Docker, self-hosted on a VPS, and features JWT-based authorization for secure access to protected routes.
- **Frontend (Web)** 📄: Implemented using Next.js, ensuring a fast, responsive user experience with Server-Side Rendering (SSR) for enhanced performance and SEO.
- **Mobile** 📄: Developed with React Native to provide feature parity and seamless interaction across multiple devices.
- **Infrastructure and Deployment**: Managed with Nginx for subdomain routing and HTTP to HTTPS redirection, with an automated pipeline for continuous deployment to the VPS.

### • Gamers Connect - Social Media App

Technologies: React.js, Firebase

---

## Education

### • NeoG Camp Bootcamp

Full-Stack Web Development

Jan 2022 - Jun 2022

### • Valia College of Arts, Commerce and Science

Bachelor of Science in Information Technology

2018 - 2021
